

Reserva Florestal de Recreio do Cerrado dos Bezerros

Nature Reserve & Recreation Park of Cerrado dos Bezerros

A cerca de 400 metros de altitude, e aproximadamente a meio caminho entre Vila Franca do Campo e as Furnas, a Reserva de Recreio do Cerrado dos Bezerros é separada do respectivo Viveiro Florestal pela Estrada Regional.

Remonta ao início dos anos sessenta a criação da Reserva, com a plantação de uma grande variedade de árvores exóticas, uma mistura equilibrada de folhosas e resinosas. A mata ao longo dos anos tem sido dotada de novos equipamentos de recreio, e as suas refrescantes sombras continuam a atrair as populações circundantes e os turistas que nos visitam.

400 meters, roughly, above sea level and approximately halfway between the villages of Vila Franca do Campo and Furnas, the Nature Reserve & Recreation Park of Cerrado dos Bezerros is cut from the neighbouring Forest Nursery by the regional road.

The Reserve was created in the 1960s and displays a large variety of exotic trees and a fine balance between hardwoods and conifers. Over the years, recreational equipment has been added to the Reserve, popular among visitors and inhabitants of the island, who enjoy the cool shade from its trees.
